

# **CEAIG at Dixons Trinity Chapeltown**

Careers lead: Jennifer Smith SLT link: Joe Norris Chair of Governors: Sue Richardson Review date: August 2023

### **Principles**

Our uniting 'sentence' is "all students will have access to independent guidance, a broad range of information about different careers and information on different qualification pathways in order for them to make informed decisions about their future".

- At Dixons Trinity Chapeltown, our mission is that all students succeed at university or a real alternative, thrive in a top job and have a great life. Our values of hard work, trust and fairness support this mission, and our language, routines and structures constantly reinforce the metaphor of 'climbing the mountain' and thus, careers education permeates everything that we do. Our drivers of 'mastery, autonomy and purpose' ensure all students are intrinsically motivated to achieve their full potential and to see the doors education can open. All our artefacts in school support this mission and we understand the importance of the CEAIG programme in helping us to achieve that mission.
- The planning of our programme has been informed by the Trust-wide careers policy, which is regularly updated and reviewed. The aims and principles of our all through careers' education have been devised to ensure that the careers policy supports our careers programme. Careers leaders across the Trust meet regularly in cross cutting teams to discuss current information about the labour market, reflect upon key careers research and share best practice.
- Staff are regularly updated on the range of routes available to students and current labour markets. The careers lead regularly imparts knowledge of updated careers information to staff either through CPD sessions or email.
- Purpose is a key driver, and therefore, careers education underpins the entire curriculum. Every subject at Dixons Trinity Chapeltown is committed to supporting the careers provision. As seen below, in each subject, a careers spotlight is shared and discussed at least once every cycle. This means that every child learns about over thirty different careers within one year.
- At Dixons Trinity Chapeltown, we understand that each subject is unique and therefore the head of each department is given the autonomy to offer careers within the curriculum, which are the best fit for their subject. Each subject's offerings are listed on their curriculum principles. Opportunities are built in to make links to the world of work to enhance the careers, advice and guidance that students are exposed to.
- The academy uses the START platform to collect information from students so that we can provide tailored and specific careersbased opportunities. Regular interactions with the START platform allow students to explore further careers linked to their interests and areas of strength. Furthermore, it gives access to updated labour market information (LMI). All interactions and the yearly careers plan are recorded on Compass+, which allows us to track engagement in careers activities.

#### Throughout their all-through careers' education, students at Dixons Trinity Chapeltown will:

- undertake various work-related experiences.
- reflect upon and refining aspiration.
- increase knowledge of education, training, and career opportunities.
- develop a career plan to help achieve the academy's mission and fulfil potential.

#### The careers curriculum will address social disadvantage by providing all students with:

- knowledge about university including the logistics of finance and applications.
- a full range of workplace experiences.
- information from all sectors including those in the locality of Leeds and in wider areas.

## **Overview**

	Cycle 1	Cycle 2	Cycle 3
	Career inspiration: teacher, scientist	Career inspiration: firefighters, police officer, vet, farmers, author, librarian,	Career inspiration visit: curator of a museum

## The Gatsby Benchmarks – Key

The careers provision of Dixons Trinity Chapeltown has been closely mapped to the eight Gatsby Benchmarks in order to ensure all students, on leaving education, can meet the demands of the fast-changing world of work.

- GB1: A stable careers programme
- GB2: Learning from career and labour market information
- GB3: Addressing the needs of each pupil
- GB4: Linking curriculum learning to careers
- Encounters with employers and employees GB5:
- GB6: Experiences of workplaces
- GB7: Encounters with further and higher education
- GB8: Personal guidance
